EZ-LYNK / AUTOAGENT

AUTOAGENT SETUP

CONNECT, LINK & FLASH

The EZ-Lynk AutoAgent plugs into your OBD-II port and runs everything through the EZ-Lynk app on your phone or tablet, Apple or Android. Use it to monitor gauges, scan and clear trouble codes, and flash the tunes we send you.

> **SETTING IT UP FOR SOMEONE ELSE?**
> The account locks to the AutoAgent. Create it with the **truck owner's email**, or have them create it and send you the login.

SETUP

01 **Download the EZ-Lynk app** and **create an account**.

02 **Turn the key to On/Run**, past Accessory but not to Start.

03 **Plug the AutoAgent into the OBD-II port.** You should see a blue light and a green light.

04 **Connect your phone to the AutoAgent's Wi-Fi.** Scan for networks and join `EZ Lynk_###`.

05 **Open the app.** If you're connected, you'll see live vehicle gauges.

06 **Link the AutoAgent to your truck.** This needs internet. Without cellular data, switch your phone to a regular Wi-Fi network and reopen the app. You should get a prompt to auto-link. If it asks for a technician email instead, email us.

07 **Load your tune.** Go to `Menu` › `Vehicle` › `ECU Profiles`. Find your tune, tap `Download`, then `Install`, then `Proceed`.

08 **Follow the on-screen instructions** to finish flashing.

> **NO CELLULAR DATA?**
> Disconnect from the AutoAgent's Wi-Fi and download your tune over a normal internet connection. Then reconnect to `EZ Lynk_###` to install and flash.

SELLING THE TRUCK?

Use `Handover Vehicle` in the app to transfer your tune files to the new owner's account. Shops can use it too, to flash in-house without the customer's phone.

EZ-LYNK / SUPPORT PACKAGES

HOW YOUR TUNES GET TO YOU

WE QUEUE IT
Your VIN goes in our queue

YOU ACCEPT
Next hookup prompts you

TUNES APPEAR
Vehicle › ECU Profiles

Everything happens over the cloud. Once you accept the link, your full library of tune files shows up in the app.

CHOOSE YOUR SUPPORT PACKAGE

SUPPORT PACKAGE
LIMITED

4 Weeks
FROM THE DAY YOU LINK

- Full access to your tune files
- Swap tunes, power levels and transmission tunes as often as you like
- After 4 weeks, the files leave your library. Whatever's flashed stays on the truck.
- Upgrade to Unlimited any time after the 4 weeks end, at extra cost

BEST FOR
Load a tow tune and forget about it.

SUPPORT PACKAGE
UNLIMITED

Lifetime
AS LONG AS YOU OWN THE TRUCK OR AUTOAGENT

- The same tune files as Limited
- Access never expires
- Change power levels whenever you want
- Get future tune updates

BEST FOR
Trucks that keep getting new parts and new tunes.

THE CLOCK STARTS AT THE LINK
Your 4 weeks start when you **link to the truck**, not when you buy.

SOTF STILL WORKS
If Limited Support expires with an SOTF tune loaded, **your switch still changes power levels**.
